

CHARACTERISTICS:

OROS is an innovative soil improver based on chestnut tannin, 100% of Italian origin, rich in polyphenols and organic acids.

OROS allows an improvement of the soil features, acting positively on exhausted soils, with few organic substance and high salinity. OROS accelerates the mobilization and the assimilation of nutrients, stimulates the chlorophyll, re-balance the soil pH.

RATES AND MODES OF USE:

OROS can be used successfully on soils dedicated to horticultural, fruit ornamental crops, etc.

OROS should be used by root application (fertigation or drip irrigation) at a rate of 10-20 lt/ha according to the needs.

SHAKE BEFORE USE.

WARNINGS:

Avoid mixtures with heavy metal salts, lime, oxidizing materials and organic products (especially those derived from animals such as fleshings, epithelium, etc.). It is suggested to carry out preventively a small miscibility test.

The product in stock is stable at temperatures between 5 and 35° C. Store in a dry and cool place away from heat sources and direct sunlight.

Do not dispose of the container into the environment. Keep the packaging out of reach of children, pets, food and drinks. In case of eye contact, wash immediately with plenty of water.

The manufacturer is not liable for damage caused by improper use of the product.
